

17th – 20th May 2026
Diplomat Hotel Prague,
Prague 6, Czech Republic

We would like to invite you to

ADVANCED PAEDIATRIC PAIN & PALLIATIVE CARE WORKSHOP EPEC-PEADIATRICS LEVEL 1

This intensive training program, based on the internationally recognized Education in Palliative & End-of-Life Care (EPEC) curriculum, offers an exceptional opportunity to acquire cutting-edge knowledge and practical skills in paediatric palliative care.

Why Join Us?

Learn from Global Leaders: Gain insights directly from senior faculty, including the course author Stefan Friedrichsdorf, Joanne Wolfe, Justin Baker, and others.

Comprehensive Curriculum: Featuring state-of-the-art knowledge in pain treatment, symptom management, and training in skills required to address key domains in Paediatric Palliative Care.

Networking: Connect with healthcare professionals from across Europe.

Career Advancement: This course is a prerequisite for those planning to participate in future Level 2 training to become EPEC lecturers or seeking international internships.

The course is accredited for physicians by the Czech Medical Chamber, making it possible to have the credits recognized by your home institution.

For more information and registration please visit [EPEC Paediatrics Prague • NRV](#)

We would also like to invite you to the EPEC-Paediatrics Train the Trainer Workshop (Level 2) and the Professional Development Workshop (Level 3), which will be held on October 24–27, 2026, in Rome.

For more information and registration please visit [EPEC-Paediatrics Rome Maruzza](#).

Who Should Attend?

Physicians and nurse practitioners.
Nurses, social workers, and psychologists.
Physiotherapists, academic staff, and students.
